I am a highly motivated Full Stack Web Developer with a passion for building scalable and efficient web applications. With a strong foundation in both frontend and backend development, I specialize in creating seamless user experiences and robust system architectures. I am always eager to learn and stay updated with modern web technologies to deliver innovative solutions. I am now seeking an opportunity to apply my expertise and contribute to a dynamic development team.

Experience

- **Freelance web developer** 2024 - present
 - Built responsive and user-friendly web applications using modern frontend technologies like React.js, along with backend frameworks such as Node.js. managing APIs, and ensuring seamless functionality across platforms.
 - Collaborated with clients to understand project requirements, translated ideas into functional web solutions, and managed tasks effectively.
 - Styled web applications using Tailwind CSS and Bootstrap to create responsive, modern, and visually appealing user interfaces.
 - Interacted with databases like MongoDB, designed efficient data models, and implemented CRUD operations for dynamic web applications.

Education

- **Faculty of Engineering, Alexandria university** 2019
 - Bachelor of civil engineering.
 - Grade: pass

Skills

- Frontend Development
 - UI & Styling: HTML, CSS, Tailwind
 - Core Technologies: JavaScript
 - Frontend Frameworks & Libraries: React.js
